

Dear Parents,

This is an activity for you to do with your son/daughter. The purpose is to give you and your son/daughter a few minutes to communicate and share some special thoughts and feelings. As a parent of two, when they were teenagers I felt I very seldom had the opportunity to tell them how special they were to me... now you have this opportunity.

After you have finished filling the in blanks, share this information with your son/daughter. I hope both of you enjoy this special "homework assignment."
